

The National Assessment of Educational Progress (NAEP) assesses reading on a 0-500 point scale. In 2007, Austin Independent School District was one of eleven urban districts that voluntarily participated in the NAEP reading assessment on a trial basis.

Overall Reading Results for Austin

- In 2007, the average scale score for fourth-grade students in Austin was 218. This was not significantly different from their average score in 2005 (217).
- Austin's average score (218) in 2007 was higher than that of public schools in large central cities² (208).
- The percentage of students in Austin who performed at or above the NAEP *Proficient* level was 30 percent in 2007. This percentage was not significantly different from that in 2005 (28 percent).
- The percentage of students in Austin who performed at or above the NAEP *Basic* level was 62 percent in 2007. This percentage was not significantly different from that in 2005 (61 percent).

Percentages at NAEP Achievement Levels and Average Score

NOTE: The NAEP grade 4 reading achievement levels correspond to the following scale points: *Below Basic*, 207 or lower; *Basic*, 208–237; *Proficient*, 238–267; *Advanced*, 268 or above.

Performance of NAEP Reporting Groups in Austin: 2007

Reporting groups	Percent of students ³	Average score	Percent below Basic	Percent of students at or above Basic	Percent of students at or above Proficient	Percent Advanced
Male	50	214	42	58	27	6
Female	50	222	34	66	34	10
White	28	244	10	90	63	20
Black	13	201	59	41	11	1
Hispanic	54	206	49	51	16	2
Asian/Pacific Islander	4	236	22	78	56	22
American Indian/Alaska Native	#	‡	‡	‡	‡	‡
Eligible for National School Lunch Program	61	203	54	46	12	1
Not eligible for National School Lunch Program	39	242	13	87	59	18

Average Score Gaps Between Selected Groups

- In 2007, male students in Austin had an average score that was lower than that of female students by 8 points. In 2005, the average score for male students was lower than that of female students by 10 points.
- In 2007, Black students had an average score that was lower than that of White students by 44 points. In 2005, the average score for Black students was lower than that of White students by 39 points.
- In 2007, Hispanic students had an average score that was lower than that of White students by 38 points. In 2005, the average score for Hispanic students was lower than that of White students by 32 points.
- In 2007, students who were eligible for free/reduced-price school lunch, a proxy for poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 39 points. In 2005, the average score for students who were eligible for free/reduced-price school lunch was lower than the score of those not eligible by 33 points.
- In 2007, the score gap between students at the 75th percentile and students at the 25th percentile was 51 points. In 2005, the score gap between students at the 75th percentile and students at the 25th percentile was 50 points.

Reading Scores at Selected Percentiles

NOTE: Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels performed.

Rounds to zero.

‡ Reporting standards not met.

* Significantly different from 2007.

↑ Significantly higher than 2005. ↓ Significantly lower than 2005.

¹ Comparisons (higher/lower/narrower/wider/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages. Comparisons across jurisdictions and comparisons with the nation or within a jurisdiction across years may be affected by differences in exclusion rates for students with disabilities (SD) and English language learners (ELL). The exclusion rates for SD and ELL in Austin were 8 percent and 14 percent in 2007, respectively. For more information on NAEP significance testing see <http://nces.ed.gov/nationsreportcard/reading/interpret-results.asp#statistical>.

² "Large central city" includes public schools located in large central cities (population 250,000 or more) within metropolitan statistical areas as defined by the federal Office of Management and Budget. It is not synonymous with "inner city."

³ For comparison, non-White students comprised 79 percent of students in large central city public schools and 44 percent in public schools nationally at grade 4. Also, students eligible for free/reduced-price school lunch comprised 70 percent of students in large central city public schools and 45 percent in public schools nationally.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for the National School Lunch Program, which provides free and reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed. Visit <http://nces.ed.gov/nationsreportcard/reading/tuda.asp> for additional results and detailed information.
